Wrong about the Fed replacing the Rothschild's, J P Morgan worked as an agent for the Rothschild family at Jekyll Island. It's all the same system and owned by the same families apart from the enemies of the west who work outside the system. China, Russia, Iran, Venezuela, N. Korea etc. See the pattern of the wars throughout history and you'll see the countries who tried to opt out but instead were given a good dose of good old western democracy and a loan from the IMF to enslave them.
